Education

Babu Banarasi Das Institute of Technology & Management

2023 – 2027

B.Tech in Computer Science and Engineering

CGPA: 7.43

Avadh Collegiate, Lucknow

Class XII (CBSE) (2023)

88%

Class X (CBSE) (2021)

93%

Experience

Stremly

Feb 2026 – April 2026

Role - Full Stack Developer Intern

- Contributing across the **Software Development Life Cycle (SDLC)** from requirement analysis and design to implementation, testing, and maintenance.
- Designed a **scalable Graph Engine layer** with CRUD operations, and **optimistic locking** to handle concurrent updates.
- Built a **dual-database architecture** using **PostgreSQL** and **Neo4j** for efficient storage and dependency analysis.
- Implemented **Redis caching**, to improve application performance and reduce database load.
- Architected a **real-time event-driven system** using **Redis Stream** and **Server-Sent Events (SSE)** for live updates across clients.

Projects

MediQueue | *React (Vite), Node.js, Express.js, PostgreSQL, Redis, SSE, Gemini AI*

🐙 GitHub **Live**

- Built a **hospital OPD queue management system** by implementing the complete **patient registration** and **token generation workflow** for doctors and reception staff.
- Implemented **Redis Pub/Sub** and **Server-Sent Events (SSE)** to synchronize doctor dashboards, display boards, and patient trackers with real-time queue updates.
- Integrated **Gemini AI** to suggest the appropriate **department** and **priority level** from patient symptoms.

LaunchSignal | *React (Vite), Node.js, Express.js, MongoDB, REST APIs, JWT, bcrypt*

🐙 GitHub **Live**

- Tested the application on **Reddit**, onboarding **20+ founders** and **65+ users** through real-world product validation.
- Implemented secure authentication using **JWT** and **bcrypt hashing** for user authentication and password protection.
- Optimized performance through **MongoDB indexing** and migrating image storage to **Cloudinary**, reducing API response times from **4s to under 500ms (8x improvement)**.
- Built a personalized matchmaking system using **interest-based filtering across 6+ categories**.

Technical Skills

Languages: Java, JavaScript, SQL

Core CS: Data Structures & Algorithms, OOP, DBMS, CN

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub, Postman, VS Code

Achievements

- Ranked in top 30 in SIH Internal College Hackathon.
- Solved more than 300 DSA questions across platforms.

Certifications

- Frontend Development with React – Meta (Coursera)
- Hackathon Certificate (SIH) – Internal Round
